Website Standards

As standard all our websites are cross browser compliant so that they work correctly in all major browser versions; Internet Explorer, Mozilla Firefox and Netscape, on PC and MAC. It will adhere to accessibility guidelines as specified by Web 2.0, WC3, DDA, RNID and RNIB. Your website will be fully scalable to allow for future developments and enhancements.

All of our web servers are monitored and automatic alerts allow us to respond and rectify any site down time immediately.

Server Hosting

The Media Design House provide website hosting using Fasthosts, UKFast and 1 and 1, three of the UK's leading hosting providers.

Hosting packages start from £25+VAT per month*
*Bandwidth up to 5Gb/month = £25+VAT/mth. Each additional 5Gb/mth = £5+VAT/mth
Firewall Protection

All new websites are backed up regularly, to ensure that the website can be reinstalled and up and running as soon as possible should the server fail.

don't take our word for it. testimonials...

Every client has a dedicated team of designers and developers working with them from start to finish.

Client expectations will be exceeded; our 60 years of experience working with some of the biggest brands in the UK gives them access to unrivalled creative expertise.

“**refreshing approach, commitment and professionalism...**”

Andrew Goddard
Operations Director
Belvoir Lettings

“When we decided to update our organisations brand we needed a company that was able to deliver a one stop shop (website, stationery and marketing material).

TMDH offered us all these services and managed every aspect of the process, all we needed to do was take delivery! We found them flexible and able to turn around projects within agreed time scales.

Feedback from our members on their work has been very positive and complimentary enjoying the fresh, dynamic brand that they have created. We will continue to use The Media Design House for our future needs and would be happy to recommend them to others.”

Andy Ferris
Marketing Manager
Surf Life Saving Great Britain

“When the time came to put together our 2008 Cornwall foodfinder trade directory and accompanying website we knew we wanted something different from those that had gone before.

TMDH offered a competitively priced service, a young non-blinkered approach and a team who were not afraid to suggest something a bit funky. What we got was a very user friendly vibrant looking website and directory which received glowing tributes from hoteliers, restaurateurs and foodies.

TMDH team handled the project from start to delivery, always to deadlines, always with great humour and patience. I would have no hesitation in recommending them and they would be my first port of call for any future requirements.”

Sue Sargent
Project Officer
Foodfinder

Belvoir Lettings

As brand managers we have helped develop a cohesive brand across the entire group of 120 franchisees, covering every aspect of their business from adverts to shop facias and car livery.

We have recently completed one of the largest and most technically advanced letting franchise websites on-line to date. The site includes intuitive Geosearch, property mapping and franchisee search, with a substantial content management system covering every office in the country.
